<http://www.stickytickets.com.au/5235>

Please note – this event is strictly limited to 500 tickets

*All proceeds will be donated to the Patrick Swayze Pancreas Cancer Research Fund based at Stanford University*

## The Patrick Swayze Pancreas Research Fund at the Stanford Cancer Centre

While battling his disease, Patrick Swayze was courageous in making his cancer public and speaking out in support of cancer research.

In this spirit, the Patrick Swayze Pancreas Cancer Research Fund has been established at the Stanford Cancer Centre to fund research that leads to more effective treatments for pancreas cancer patients. Gifts to this fund will support studies to increase our understanding of pancreas cancer and develop new therapies and technologies that can be applied to improving diagnosis, treatment, and prevention.

“Our goal is to apply a multidisciplinary approach to the study of pancreas cancer and the care of patients afflicted with the disease,” says George Fisher, MD, PhD, associate professor medicine-oncology.

“I am confident that research involving emerging technologies and targeted therapeutics will offer improved outcomes for pancreas cancer patients, and that this work will serve as a worthy tribute in honor of Patrick,” Dr. Fisher said.

Swayze’s wife, Lisa Niemi, commented: “I know that Patrick would be more than pleased that this fund will enable Dr. George Fisher and the experts at Stanford to pursue important research that will improve the odds of survival for future patients. It was Patrick’s deepest wish that his illness and brave fight somehow help others. I know he, as well as I, thank you for your help in the fight against this terrible disease.”
